NAS Pilot Document Page for Carbaryl.docx

Hi Melissa & Amy,

Please see below to link into the carbaryl webpage. Please let me know if you have any issues or anything logging in.

Thanks!

Christina

**Subject:** RE: Carbaryl files in H drive folder, ready for downloading

Hi Christina,

The demo page is now available at  
<https://wcms.epa.gov/node/173621/revisions/511983/view>

I have also attached the landing page Word file with a couple of highlighted entries with different file extensions. I want to make sure I made the appropriate corrections.

Thank you

Delphine

**Subject:** RE: Carbaryl files in H drive folder, ready for downloading

Hi team,

I just wanted to let you know, that the carbaryl files are now in the H drive location, and are ready for downloading when you are ready for them. Since the carbaryl landing page is in progress, once that is complete, the carbaryl files are set and already ready to be downloaded.

Again, any questions or issues, please let me know.

Thank you for all of your help!

Christina

**Subject:** Attachment files in H drive folder, ready for downloading

Hi team,

I have just added the Attachment files, and these are available on the H drive, ready for downloading. As a reminder, the Attachment files are the same for both methomyl and carbaryl, they have been placed in a separate folder in H:\NAS Pilot\CARB+METH Draft BEs.

We are hoping to send carbaryl a little later on.

Any questions or issues, please let me know.

Thank you,

Christina
